

The Evolution Of Richard Dawkins

Here we take a look at what the theory of evolution boils down to when you put it down on paper in unadulterated language. Many evolutionists will argue that the analogies in the slides are somewhat incorrect in one way or another, but in reality, they themselves can't make any "corrections" with any degree of assurance, since all the timelines and so-called "transitional forms" or transitional fossils cited by evolutionists are pure speculation anyway.

To start the slideshow just click on the upper left slide and to advance each slide click on the right arrow on each individual slide.

Let's take a look at what
evolutionists want us to believe...

Does this guy on the left look like a
monkey in a shirt & tie?

Evolutionists believe that in the course of a **FEW**
million of years he evolved into a human.

ape

Millions
of years

evolved
ape

Does this guy on the left look like an
alligator wearing a hat and a collar?

Evolutionists believe that in the course of **TENS of
millions of years** he evolved into a human.

amphibian

Tens of
millions
years

evolved
amphibian

Does this guy on the left look like a fish
with a hat and eye glasses?

Evolutionists believe that in the course of **HUNDREDS of
millions of years** he evolved into a human.

fish

Hundreds
of millions
of years

evolved
fish

Does this guy on the left look like an amoeba wearing a hat?

Evolutionists believe that in the course of a **few BILLION years** he evolved into a human.

amoeba

Billions
of years

evolved
amoeba

Does this thing on the left look like a BIG explosion?

Evolutionists believe that in the course of a **VERY VERY long time**, an explosion they call "the big bang" created everything we see.

a BIG
explosion

A VERY
VERY long
time

evolved
explosion

Please note that this last analogy is VERY significant, because it points out where evolution **BEGINS** as well as where it **ENDS**. People who argue about various so-called midpoints on the make-believe evolution timeline should instead concentrate on the **TWO ENDPOINTS** of evolution and see who is willing to **BELIEVE THAT STORY WITHOUT LAUGHING!**

a BIG
explosion

A VERY
VERY long
time

evolved
explosion

What a ridiculous fairy tale evolution is!

The End

There's got to
be evidence
for evolution
somewhere!

Evolution: The World's Greatest Fairy Tale

What a ridiculous fairy tale evolution is!

The End

"For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men, who hold the truth in unrighteousness; Because that which may be known of God is manifest in them; for God hath shewed it unto them. For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead; so that they are without excuse: Because that, when they knew God, they glorified him not as God, neither were thankful; but became vain in their imaginations, and their foolish heart was darkened. Professing themselves to be wise, they became fools, And changed the glory of the uncorruptible God into an image made like to corruptible man, and to birds, and fourfooted beasts, and creeping things. Wherefore God also gave them up to uncleanness through the lusts of their own hearts, to dishonour their own bodies between themselves: Who changed the truth of God into a lie, and worshipped and served the creature more than the Creator, who is blessed for ever. Amen." [Romans 1:18-25]
